- Hospitality Uniforms
- Fire & Chemical Retardant Uniforms
- Safety Accessories

ABOUT US:

S. S. BENGALY & CO., was established in the year 1919 to cater to the needs of the work-wear industry. Keeping in sync with the changing needs and market trends, we too have evolved, improved and innovated ourselves to bring you latest work-wear solutions that really work! And of course, with the same reliable quality.

Quality, which has helped us earn appreciation from prestigious clients like HOLLAND-AMERICA LINE and the KERK LINE coming to INDIA.

We have received certificates from many of our clients for excellent performance and full satisfaction of services provided. We are proud to have served many local and international clients like PETRON, HOMA, ESSO, HPCL, ONGC and many more.

OUR VISION:

To exceed the expectations of our clients, in terms of quality and timely delivery.

As we are approaching the DIAMOND JUBILEE of our establishment, we would like to celebrate it by a positive and strong attempt to set a base and capture the EUROPEAN and MIDDLE-EAST

Workwear solutions
that **work.**

INFRASTRUCTURAL FACILITIES:

Matching up to the expectations of our clients requires a sound infrastructure. Our production units in and around Mumbai are well equipped and self-sufficient to meet every stage of production, from cut to finish. And our skilled workforce ensures that we can deliver quality and timely output of any given volume.

We lab-test all our fabrics for color fastness, shrinkage, dry/wet rubbing and inflammability to conform to your required standards.

We have the facilities to do all types of logos using embroidery, computerized designing and screen prints.

SAMPLING POSSIBILITIES:

We are well-versed with making samples that conform to our production standards on the basis of your sketches/ideas/requests. We extensively prefer samples from our clients so that we can assure the same, or in fact, improved quality, accordingly.
